Code Structure

✤ 4 HTML Files, 4 CSS Files, CNAME file

Tech Stack

- HTML 5

- CSS

- GitHub Pages

- DNS

Code Demonstration

✤ It's show time!

Biggest Challenges

✤ Media Queries

✤ Mobile First

✤ Grid Layout

✤ Learning CSS Specificity

Lessons Learnt

* CSS Layout

* Time Management

* Media Queries

What I'd continue working on

✤ Cleaning up CSS further

✤ Using a framework

✤ Implementing JS

Personal Victories / Favourite Parts

✤ Delivering a working product by a deadline

✤ Engaged in my learning and coding

✤ Working with and getting inspired by others

✤ Watching my project develop and grow with my learnings

Thank You

* Questions?
